April Big Idea: Patience	Thank you to all the K-2 Parents who have signed up to <i>Mystery Read</i> to our classes. We LOVE to READ at EUCLID!!!
<p>Patience is waiting until later for what you want now. Being patient can be beneficial, as it can help improve our emotional, social, and physical health. A few benefits of patience are: You can be more realistic and rational about decisions, you can develop persistence and resilience, and you can be less stressed while learning new skills. Patience involves pausing to think about the bigger picture and not just the present.</p> <p>Animal: Koi Fish - These ornamental fish have a rich history and are very interesting creatures. There are over 20 different kinds of koi fish that range in color, patterns, and type of scales. Koi fish are extremely intellectual. Koi fish have the ability to recognize the person who feeds them and they can be trained, like a dog or cat, to eat from his/her hand. Owners who received their koi fish as a gift are considered to have good luck.</p> <p>Color: Payne's Gray</p>	

April 3rd was Paraprofessional Day. Euclid School relies on our Paraprofessionals on a daily basis to assist our students in reaching their fullest potential. While we recognized their work last Wednesday, we appreciate them **EVERY DAY!**
