January Big Idea: Resilience	Our students Rocked the Red today in support of remaining Drug Free!
<p>Resilience is getting back up when something gets you down. When life throws you curveballs, resilience is your secret weapon. It's what helps you turn setbacks into comebacks and obstacles into opportunities. With resilience, you can face challenges head-on and emerge even stronger on the other side.</p> <p>Animal: Marine Iguana- Just like the marine iguana, you can adapt to challenges and thrive in tough situations. Even though they face harsh conditions in their habitat, marine iguanas use their resilience to survive and flourish. They remind us that resilience is not just about surviving—it's about thriving against all odds. You, too, can tap into your resilience to overcome any challenges that come your way! So tell yourself - "I am going to thrive, not just survive!" You have that same inner strength to overcome obstacles and keep growing stronger!</p> <p>Color: Red Ochre</p>	

<p>The Going Green Club will be having a Pet Drive from January 6th-24th. They will be collecting blankets, food, toys, boxes, newspapers and treats for Teterboro Animal Shelter. Should you wish to donate, you can drop items off or send them into school with your child/children.</p>
