

HASBROUCK HEIGHTS

JUNIOR AVIATOR FRIDAY FOLDER

April 23rd, 2021

HELLO

my name is

Dear Junior Aviator Parents/Guardians/Students,

We are down to our final 40 days of school! Before you know it, I will be playing the Final Countdown, which usually come after the Memorial Day Weekend! :-)

We are very excited to begin our next phase (Full School Days) on May 24th. Please do not forget to fill out the survey by Monday, 4/26. If you do not fill out the survey, your child will be listed as a Virtual student. We need to know the numbers ahead of time in order to prepare. Once again, our goal is to test out this new schedule at the end of this school year in order to prepare for the 2021-22 school year.

GameSalad is a drag and drop game creation engine for the development of iPhone, iPad, Android & HTML5 games. ... Our Stem class has a goal to enable anyone to engage with STEAM (Science, Technology, Engineering, Art, and Math) and learn Computer Science through video game creation. As can be seen from the screen shots the students have done an amazing job with their video games.
