Junior Aviator Parents & Guardians,

Today, our 6th grade students visited *Medieval Times* and had an absolute blast! The performance included various themes such as chivalry, character, and honor. Our 6th grade students returned from the trip with smiles on their faces and they had plenty to talk about! A special thank you to Ms. DiPiano for putting together such a well-organized and enjoyable trip for our students.

We also had our 3rd annual *Junior Aviator Geography Bee*. There were 15 finalists from the middle school who participated and over 10 rounds of competition, which ended with questions on Europe. Congratulations to all of our Jr. Aviators who competed. The Top 3 place-winners were Aditya Vij (3rd place), Diego Mancini (2nd place), and Ryan Hopson, who took first place this year. Ryan will be forever enshrined on the *Junior Aviator Wall of Fame!*

The MS Treps Club held an Earth Day Recycling Competition, in which students were asked to recycle and re-purpose materials into useful, artistic objects. The winners of the "Most Functional" category were Gianna Garcia and Kailen Peterson. Alyssa Pennisi, Tala Tahhan and Morgan Bernet won for "Most Artistic"... Congrats to all!

Please check out our Important Dates section as the end of the school year is quickly approaching!
