"HOME OF THE JUNIOR AVIATORS!"

Mr. Joseph Mastropietro, Principal

Mr. Frank D'Amico, Vice Principal

May 5th, 2022

Junior Aviator Parents/Guardians,

Last summer, in an effort to remediate some of the potential gaps that may have occurred as a result of the pandemic, we developed a **Summer Enrichment Program** that was offered to all middle school students in the areas of Reading, Writing, and Mathematics. The *Summer Enrichment Program* was NOT mandatory, but was well-attended by our Junior Aviators. This year, we are looking to implement a similar enrichment program for Summer 2022, which will hopefully become a regular part of our programming for years to come!

First off, the program comes at no cost to the students/families who wish to participate (again, NOT mandatory). The program will run from **Tuesday, July 5th, and ending on Wednesday, July 20th (12 days total)**. Students who choose to participate will come to the school building (in-person) for a 2-hour session of instruction with a certified ELA and Mathematics teacher (one hour each). Students will be assigned to different groups based on their individual learning needs and academic skills.

The preliminary schedule will be as follows (subject to change based on the # of students that sign up and staff):

- Current 8th Grade Students> 8:30 am - 10:30 am
- Current 7th Grade Students> 9:30 am - 11:30 am
- Current 6th Grade Students> 10:30 am -12:30 pm

IMPORTANT: Please complete the survey below if your child will be participating in the Middle School's *Summer Enrichment Program*. Participation in the program does not require perfect attendance (all 12 days). If your child can attend the majority of the sessions, they can still attend the program. If you have multiple children who you'd like to enroll in the program, please "*Submit another Response*" for each additional child. **The survey must be completed by May 16th, 2022.**
