February Big Idea: **Creativity**

Creativity comes from the word create, which means to make, to build. Showing creativity is to use your imagination to do something unique.

Animal: **Chameleon** These colorful lizards are known for their ability to change their color, their long, sticky tongue; and their eyes, which can be moved independently of each other. They don't technically create their different colors, but they inspire wonder for their ability to change color among other fun traits!

Color: **Lime Green**

Student Council is doing their yearly change collection for Pennies for Patients. This is an organization that helps raise money to do research to find cures for different types of leukemia and blood cancers that affect children. A collection box will be going home on Friday.

The collection will be from Feb. 3rd till Feb. 24th.
