Class:

Dear Parent/Guardian:

You child has been found to have head lice. Head lice spread very easily, and even the cleanest child can become infested. Outbreaks are common among school children. Prompt treatment of your child will not only make him/her more comfortable, but also protect the rest of your family.

**\*\* According to HHBOE policy 5141.22 \*\***

- 1. Children MUST be escorted directly to the nurse's office by their parent/guardian.**
- 2. All children must be checked and cleared by the school nurse before returning to class.**
- 3. Treatment letters must be returned along with the empty box of the product used.**
- 4. A written doctor's note indicating treatment, examination and clearance to attend school Will be accepted by the school nurse. Enclosed with a physician's note, the child will be Rechecked in 7-10 days.**

**Please attach a physician's note indicating treatment and clearance to return to school**
