

NJ State – Paul's Law Seizure Training

In January 2020, Governor Murphy signed Paul's Law. This law requires that all school personnel are trained in seizure recognition and first aid and that school districts have an individualized seizure action plan for each student who has epilepsy.

The following link provides the annual education regarding seizures that is required of all staff. Please continue until the certificate is obtained. The certificate is required of all staff members. (It can be completed in 1 sitting or will pause and may be completed in multiple sessions)

Please print out the certificate and submit it with the other first aid forms. You should also keep a copy and present it with your PDP.
