These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.

For the purposes of this Policy, "potential indicators of dyslexia or other reading disabilities" means indicators that include, but shall not be limited to, difficulty in acquiring language skills; inability to comprehend oral or written language; difficulty in rhyming words; difficulty in naming letters, recognizing letters, matching letters to sounds, and blending sounds when speaking and reading words; difficulty recognizing and remembering sight words; consistent transposition of number sequences, letter reversals, inversions, and substitutions; and trouble in replication of content.

In accordance with the provisions of N.J.S.A. 18A:40-5.2(a), the Commissioner of Education shall distribute to each Board of Education information on screening instruments available to identify students who possess one or more potential indicators of dyslexia or other reading disabilities. The Commissioner shall provide information on the screening instruments appropriate for Kindergarten through grade two students and on screening instruments that may be suitably used for older students. The Board shall select and implement age-appropriate screening instruments for the early diagnosis of dyslexia and other reading disabilities.

In accordance with provisions of N.J.S.A. 18A:40-5.2(b), the Commissioner shall also develop and distribute to each Board of Education guidance on appropriate intervention strategies for students diagnosed with dyslexia or other reading disabilities.

In the event a student is determined, through the screening conducted in accordance with N.J.S.A. 18A:40-5.3, to possess one or more potential indicators of dyslexia or other reading disabilities pursuant to the provisions of N.J.S.A. 18A:40-5.1 et seq., the Board shall ensure the student receives a comprehensive assessment for the learning disorder. In the event a diagnosis of dyslexia or other reading disability is confirmed by the comprehensive assessment, the Board shall provide appropriate evidence-based intervention strategies to the student, including intense instruction on phonemic awareness, phonics and fluency, vocabulary, and reading comprehension.

In accordance with the provisions of N.J.S.A. 18A:6-131, general education teachers in grades Kindergarten through three, special education teachers, basic skills teachers, English as a second language teachers, reading specialists, learning disabilities teacher consultants, and speech-language specialists are required to complete at least two hours of professional development each year on the screening, intervention, accommodation, and use of technology for students with reading disabilities, including dyslexia. The Board may make these professional development opportunities available to other instructional or support staff members as the Board deems appropriate. This requirement for professional development in reading disabilities may be part of the twenty hours of annual professional development required by N.J.A.C. ~~6A:9 et seq~~ **6A:9C et seq**. Documentation of teachers' fulfillment of this professional development requirement shall be maintained in the district.

Any such signs or the report of such signs from another student or staff member should be taken with the utmost seriousness and reported immediately to the Building Principal, who shall notify the student's parent(s) or legal guardian(s) and other professional staff members in accordance with administrative regulations.

A potentially suicidal student shall be referred to the Child Study Team for appropriate evaluation and/or recommendation for independent medical or psychiatric services. In the event that the parent(s) or legal guardian(s) objects to the recommended evaluation or indicates an unwillingness to cooperate in the best interests of the student, the Child Study Team may contact the **Department of Children and Families, Division of Child Protection and Permanency** ~~New Jersey Division of Youth and Family Services~~ to request that agency's intervention on the student's behalf.

In accordance with the provisions of N.J.S.A. 18A:6-111 and 18A:6-112, as part of the required professional development for teachers as outlined in N.J.A.C. ~~6A:9-15.1 et seq.~~ **6A:9C-3 et seq.**, every teaching staff member must complete at least two hours of instruction in suicide prevention, to be provided by a licensed health care professional with experience in mental health issues, in each professional development period. R 5350 STUDENT SUICIDE

The following regulations are established for guidance of staff members in recognizing the student who contemplates suicide, in responding to threatened or attempted suicide, and in preventing contagion when a student commits suicide. Because a prompt response may be essential to a student's life, the designation of a district position in these regulations includes the person who holds that position and, if the position holder is absent or unavailable, the person temporarily charged with the responsibilities of the position.

A. Recognition of Potential Suicide

All school personnel, both teaching staff members and support staff members, shall be alert to any sign that a student may be contemplating suicide. Such signs include, but are not necessarily limited to, a student's:

1. Overt suggestion, regardless of its context, that he/she is considering or has considered suicide or has worked out the details of a suicide attempt;
2. Evidence of preparation of a will, intention to dispose of his/her effects and belongings, or otherwise get life "in order";
3. Obsession with death or afterlife;
4. Possession of a weapon or other means of suicide or obsession with such means;
5. Sense of hopelessness or unrelieved sadness;
6. Lethargy or despondency, or, conversely, a tendency to become more impulsive or aggressive than usual;
7. Drop in academic achievement, slacking off of energy and effort, or inability to focus on studies;
8. Isolation from others by loss of friends, withdrawal from friends, lack of companionship, or family disintegration;
9. Preoccupation with nonexistent physical ills;
10. Loss of weight, appetite, and/or sleep;
11. Substance abuse; and
12. Loss of economic resources.

B. Response to Potential Suicide

1. Any indication of a potential suicide, whether personally witnessed or received by report from another, must be taken seriously and must be reported to the Principal immediately.

2. The Principal shall immediately inform the Child Study Team, which shall investigate the matter promptly and conduct such evaluations as may be appropriate.
3. The Principal will inform the student's parent(s) ~~or legal guardian(s)~~, in a conference if possible, of the signs demonstrated by the student and of the district's concern and seek parental approval of the student's evaluation. In the event parental abuse or neglect is suspected, the Principal or the employee who forms the suspicion will immediately so inform the **Department of Children and Families, Division of Child Protection and Permanency** ~~Division of Youth and Family Services~~ in accordance with Policy No. 8462.
4. If the threat of suicide is immediate and serious, the Principal may appoint teaching staff members and/or Child Study Team members to a suicide intervention team, which shall determine the potential of the threat by directly questioning the student, without mincing words, about:
 - a. Whether any suicide plans have been made, how detailed the plans are, and whether any preliminary actions have been taken,
 - b. The student's feelings of hopelessness and the length of time the student has had such feelings,
 - c. The student's thoughts of suicide and how persistent and strong those thoughts are, and
 - d. Whether the student has considered alternative courses of action to resolve his/her problems.
5. After gathering information, the suicide intervention team shall determine the life-threatening risk of the situation based on the student's signs of possible suicide (paragraph A1) and the student's responses to questioning.
6. If it is determined that a substantial risk of suicide exists, the Suicide Intervention Team shall:
 - a. Assign staff members as required to assure that the student is never out of the presence of an adult who has been fully informed that the student may be in danger of self-destruction,
 - b. Refer the student to the Child Study Team for comprehensive evaluation,
 - c. Notify the student's parent(s) ~~or legal guardian(s)~~ immediately and strongly recommend consultation with a licensed mental health professional or agency,

- d. Request the parent(s) ~~or legal guardian(s)~~ to sign a release of information form authorizing the chosen mental health professional or agency to share with appropriate district personnel such relevant information as premature termination of treatment, additional threats and/or attempts of suicide, and continuing warning signs.
7. A member of the Suicide Intervention Team will be appointed to follow up on the student's progress and to determine whether the student's parent(s) ~~or legal guardian(s)~~ has consulted a mental health professional or agency. Follow up reports will be made to the Principal.
8. If the student's parent(s) ~~or legal guardian(s)~~ does not sign the release of information form or does not cooperate in a comprehensive Child Study Team evaluation or does not seek treatment for the student, the Principal shall inform the **Department of Children and Families, Division of Child Protection and Permanency** ~~Division of Youth and Family Services~~.

C. Response to Suicide Attempt

1. Any attempted suicide, whether or not on school premises or during the school day, must be reported immediately to the Principal.
2. The staff member who witnesses a suicide attempt on school premises or at a school sponsored event or in the course of school-related travel shall render first aid in accordance with Policy No. 8441 and summon medical assistance as appropriate.
3. Procedures outlined at paragraph B2 through paragraph B8 above will be followed.

D. Prevention of Suicide Contagion

1. All district Principals will be promptly informed when a student of this district commits suicide.
2. Each Principal will assemble teaching staff members prior to the opening of school to provide them with accurate information, plans for the school day, and guidelines for handling the concerns of students.
3. The Principal of the school or building that the victim attended will assign a crisis team from the student personnel staff to assist the staff in dealing with the general school situation and any individual problems that may arise.

4. The suicide will not be given prominence by public announcement or a school-wide assembly. School will not be closed in order to permit students and staff members to attend the victim's funeral.
5. Teachers will respond to the needs of students with as little interruption of the educational program as possible.
6. Students will be provided with accurate information and will be given the opportunity to discuss their feelings of loss and their memories of the victim, both good and bad, without penalty.
7. All school personnel shall be especially alert to signs of contemplated suicide among the victim's peers.
8. Teaching staff members, under the direction of the Principal, shall attempt to prevent social contagion by:
 - a. Preventing glorification or romanticization of the suicide,
 - b. Helping students recognize that suicide is irreversible and permanent and does not truly resolve problems,
 - c. Encouraging students to ask probing questions when a fellow student suggests suicide and to report such suggestions to a teaching staff member, and
 - d. Discussing ways of handling depression and anxiety without resort to self-destruction.
9. Students who were close to the victim, and their parent(s) ~~or legal guardian(s)~~, shall be offered special counseling services and notified of available community mental health services.

The Board of Education is concerned for the safety of all staff members, students, parents, community members, and visitors while on school grounds. The Board of Education recognizes the operation of an unmanned aircraft system (UAS) on school grounds or flying an unmanned aircraft on or over school grounds presents a public safety issue as school grounds are populated many hours of the day by students, staff members, parents, and community members.

An unmanned aircraft system is the unmanned aircraft and all the associated support equipment, control station, data links, telemetry, communications and navigation equipment, etc. necessary to operate the unmanned aircraft. The unmanned aircraft is the flying portion of the system by a pilot via a ground control system, or autonomously through the use of an on-board computer, communication links and any additional equipment that is necessary for the unmanned aircraft to operate safely. A model aircraft is considered an unmanned aircraft.

The Board of Education prohibits the operation of an unmanned aircraft system on school grounds, the launching or landing of an unmanned aircraft on school grounds, or the flying of an unmanned aircraft over school grounds at all times.
